

# Quiz Game Description

## Introduction

This document provides a detailed description of the Quiz Game project. The purpose of this game is to entertain and educate users through a series of interactive questions.

## Features

- Multiple-choice questions.
- Timed quizzes to challenge users.
- Score tracking and leaderboard.
- User-friendly interface.

## Game Flow

1. The user starts the game and selects a category.
2. A series of questions is presented, one at a time.
3. The user selects an answer within the given time limit.
4. The game calculates the score and displays the results.

## Future Enhancements

- Add support for multiplayer mode.
- Include more diverse question categories.
- Implement hints and lifelines for difficult questions.
